Notice

As the title saying "Tic Tac Toe Advanced", this game is... Well... Not really advanced. Original plans is to include 4 different difficult levels. But Only two difficulty level were implemented (dummy AI and 2-players mode). Unfortunately, I am working on another projects so i have not included another two levels but will be included soon. Thanks for understanding.

Testimonials

Happy Clients Feedback

“

I am extremely satisfied with the work provided! From the initial concept to the final product, the team exceeded my expectations. They truly understood my vision and brought it to life with creativity, attention to detail, and professionalism. The project was completed on time and within budget, and the end result is a stunning, user-friendly website that has already received positive feedback from my customers. I couldn't be happier with the experience and look forward to working together again in the future!
